

Project Initialization and Planning Phase

Date	15 July 2026
Team ID	VBCUA-TEAM-01
Project Name	Voice-Based Concept Understanding Analyser
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am	I'm trying to	But	Because	Which makes me feel
Applicant seeking a loan	Secure a loan for the property	Married with no co-applicant income	Self-employed with a good credit history	Optimistic about loan approval

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1 (Student)	A student preparing for oral exams or viva voce.	Practice and self-assess my concept understanding using voice explanations.	I don't get immediate objective feedback on my explanation accuracy or delivery quality.	Manual grading by peers is subjective, and teachers have limited time for individual feedback.	Anxious about exams and uncertain of my speaking clarity.
PS-2 (Educator)	An educator managing large student classes.	Assess student concept explanations accurately and efficiently at scale.	Evaluating hours of spoken student responses manually is time-prohibitive and subjective.	There are no automated tools that analyze semantic accuracy and speech disfluencies.	Overwhelmed by grading workload and worried about consistency.
